

Al Pacino Leads A Band of Vigilantes in Amazon's 'Hunters'

01.17.2020

Al Pacino leads a grieving young man to a secret band of Nazi hunters in Amazon's new series, *Hunters*, premiering Feb. 21.

AV Squad worked with Amazon to create the above long-form trailer setting up the show's premise, introducing viewers to the team and concluding with action scenes set to the Talking Heads' always effective "Psycho Killer."

The series, which is produced by Jordan Peele's Monkeypaw Productions, also stars Logan Lerman and Jerrika Hinton. It was created by David Weil, who also executive produces and serves as showrunner along with Nikki Toscano.
