

## **HOT SPOT: Main Titles for WGN America's 'Outsiders'**

**02.23.2016**

Los Angeles-based Shine Studios designed, edited and animated this main title sequence for WGN America's Outsiders, produced by Sony Pictures Television. The series premiered on Jan. 26.

In a mere 45 seconds, the sequence aims to establish the atavistic world of the Farrel clan, who are still making moonshine in the Appalachian back country, just as they have for decades.Â
